WHY NOT EMBARK ON YOUR ALASKA ADVENTURE THIS FALL?

Royal Caribbean has allowed countless vacationers to leave their footprints in the sand, but we also give you the opportunity to leave them in the snow!

Did you know **FALL** is the **BEST** time to see Alaska?

- **WEATHER:** Mid-day temperature average ranges between 55-65 °F. End of August until beginning of September has dry air, which means no rainy days.
- **WILDLIFE:** During this time period wildlife graze in the coastal lowlands, bears are salmon-fishing in the open, while seals and whales are at their peak, allowing you more enjoyable sightings.
- **VIEWS:** Snow-capped mountains are spectacular and more visible, with the best opportunity to see Mt. McKinley (a.k.a. Mt. Denali). Spectacular foliage, stunning fall colors and incredible northern lights views.
- **TIMES:** Employees at our partner hotels are excited and happy to serve our guests before the end of the season. They go above and beyond the call of duty to accommodate our guests' needs. End of season also means great shopping discounts for guests.
