What new entertainment will be featured onboard?

We are thrilled to welcome back the much loved Broadway hit *Hairspray*, in addition to spectacular original shows *Flight*, *HiRO* and *1977*.

Hairspray — Mix big hair, big dreams and all the right moves and you've got one of the biggest Broadway hits of our time – *Hairspray*. Winner of eight Tony Awards and a record-breaking 11 Laurence Olivier Award nominations, this feel good favorite returns to Royal Caribbean® in a brand new, bigger-than-ever production. Break out your bobby socks, because Tracy Turnblad won't stop until she gets her shot at dancing on *The Corny Collins Show*. But TV stardom is just the beginning. *Hairspray* is back, and you can't stop the beat.

Flight — Take off on a spectacular journey through time chronicling aviation milestones in *Flight*, a Royal Caribbean original production that's unlike anything you've ever seen. Your adventure begins in the distant future, as the audience boards the Lunar: Us for the launch of the world's first aerospace cruiser on its maiden voyage to Mars. And it ends with a stunning dramatization of the Wright Brother's monumental first flight at Kitty Hawk. Buckle up for an awe-inspiring — and uplifting — first on both land and sea.

HiRO — The latest Royal Caribbean AquaTheater spectacular. *HiRO*, amazes with more high-flying feats, unexpected stunts, and extraordinary acrobatics than any aqua show before. Brought to life by the world's best extreme-sport athletes. *HiRO* pushes the limits of a theatrical production at sea with cutting edge technology, future-forward choreography and highly innovative physicality. No two shows are ever exactly the same, and anything can happen!

1977 Ice Show — Join the time-traveling hero Tempest on a new adventure in 1977. After visiting Paris on *Harmony of the Seas* in 1887, his latest journey brings him to *Symphony of the Seas* — and to London, England. Her Majesty's Crown jewels have been stolen on the eve of her Silver jubilee by a mysterious jewel thief with special powers of his own. And the clock is ticking. Luckily, time is always on Tempest's side.
