

YOUR CLIENTS' VACATION DREAMS COME TRUE

WOW

LEARN MORE ABOUT OUR TRAVEL PARTNER AUTISM FRIENDLY CERTIFICATION PROGRAM

Royal Caribbean International® has long been committed to delivering an amazing cruise vacation experience to all our guests. Now when we say we offer the one vacation with something for everyone, we proudly include families with autism. Thanks to our initiatives and efforts onboard, we're the first cruise line to be certified as Autism Friendly by Autism on the Seas™.

And now, you can learn more about our Autism Friendly programs and the latest amenities with our brand-new course in the University of WOW. Travel partners who complete this course will gain the knowledge they need to support clients who want an experience that will be enjoyable for all members of their family. A cruise on our Autism Friendly certified ships can provide a true family vacation with peace of mind for these clients.

Highlights of this module include:

- An overview of autism and who it affects
- How Royal Caribbean can accommodate individuals with autism
- An outline of new amenities and review of existing features
- How to explain the cruise experience so families are prepared

AUTISM FRIENDLY
