Shore Excursion Highlights:

- **Punta Pitt, San Cristobal** – disembark onto the small green sand beach, where you will hike up to a plateau, where the view and landscape are so spectacular it is well worth the effort. A steep gully leads up the cliff to a breeding ground for all three varieties of boobies: Red-footed, Blue-footed and Nazca. It's the one of the few places in the Galapagos where you can see all three species nesting together. Excursion options: Hike, kayak, snorkel, zodiac.
- **Darwin Bay, Genovesa**- Darwin Bay's soft white sand is only the beginning of a spectacular excursion. A trail from the beach takes you into lush mangroves where red-footed boobies nest. Other local wildlife includes sea lions, swallow-tailed gulls, frigate birds, and more. Snorkeling is a must here, as the nutrient-rich water attracts all types of marine life, including sharks, sea lions, sea turtles, and the occasional manta ray. Excursion options: Walk, swim, snorkel and kayak.
- **Puerto Ayora, Santa Cruz** - This is the main population center of the islands, and home to the National Park Service tortoise-breeding center and the Charles Darwin Research Station. Here you will have the opportunity to visit the tortoise-breeding center and walk through the Charles Darwin Research Station. In addition, you can also take a bus ride to the highlands to observe giant tortoises in the wild and walk through a lava tunnel. Optional time for shopping will be available. Excursion options: Tortoise-breeding Center/Charles Darwin Center, Highlands.
