TRAVEL IN GOOD COMPANY

The Secretary of Tourism of Ecuador holds us as the standard of excellence for our work in preserving the Galapagos Islands and reducing Celebrity Xpedition's carbon footprint. Sustainability is at the forefront of our Galapagos fleet's operations. We've gone to every length to protect this amazing part of the world—from the chocolate placed on your pillow at nightly turndown (they're purchased from an eco-friendly, local chocolate company that donates part of its proceeds to Galapagos conservation efforts) to the hull of the ship you sail aboard (painted with non-toxic silicone to move her through the pristine waters more efficiently, using less fuel reducing her carbon footprint). We do all these things—and more—so future generations can experience this unbelievable living time capsule tomorrow exactly the way you can today.
