HELPFUL INFORMATION ABOUT WHAT TRAVEL PROTECTION COVERS IN THE CASE OF COVID-19

- If you are denied boarding at the pier due to a failed health screening, that IS a covered reason to receive reimbursement for the cruise, as long as you obtain documentation from the ship's medical staff.
- If you are put into quarantine for being diagnosed with COVID-19 while on the trip and are not able to return home on your originally scheduled date, you can work with CareFree Travel Assistance™ to make arrangements for your return home when your quarantine has been lifted. You would be able to file a claim to be reimbursed for additional transportation costs.
- If you are diagnosed with COVID-19 while on your trip and seek care while onboard resulting in medical expenses, you can file a claim for those expenses to be reimbursed.
- If you need to cancel your cruise due to being diagnosed with COVID-19, that IS a covered reason to receive reimbursement, as long as the diagnosis occurred after travel protection was purchased. Be sure to obtain documentation from a Physician or a copy of the Positive COVID-19 test to submit with your claim.
